Technical skills

- **Programming Languages:** JavaScript, Typescript, C++ , Java, Python
- **Front-End:** HTML, CSS, JavaScript, React.JS, Redux, Recoil, Bootstrap, Chakra UI
- **Back-End:** Node.js, Express.js, Flask, Django, Prisma, Redis
- **Database Languages:** MySQL, MongoDB, PostgreSQL, Firebase
- **Developer Tools:** Visual Studio, Eclipse IDE, Git, GitHub, Postman, Docker

Education

Savitribai Phule Pune University

Dec 2021 – Feb 2024

Bachelor of Engineering in Information Technology

- GPA: 8.3/10.0

Experience

Software Engineer, Guruji AIR International, Pune

Dec 2023 – Feb 2024

- Designed and built a fully responsive prototype for the main website using React.js, resulting in an improved user experience that **reduced page load time by 30% across all devices.**
- Collaborated with a cross-functional team to implement modern user experience / user experience practices, **improving navigation and accessibility for more than 1,000 potential users.**
- Debugged critical front-end issues, optimized component performance, and integrated RESTful APIs to ensure **seamless data flow and user interactions.**

Projects

RoomieMate | Github | Link

Dec 2024 – Present

- Developed an expense tracking module using React.js, enabling users to log, split, and monitor shared expenses, **reducing financial disputes by 40%.**
- Designed a responsive UI with Tailwind and a scalable backend using Node.js, Express.js, and MongoDB, achieving **30% faster load times.**
- Integrated WebSocket for real-time updates, **boosting engagement by 25% with instant notifications and confirmations.**

Resumine | Github | Link

Aug 2024 – Sept 2024

- Developed a MERN stack web app for resume enhancement, integrating the Gemini API to provide personalized evaluations, **improving resume quality by 25%.**
- used Node.js, Express.js, and MongoDB for back-end functionality, **ensuring 99.9% uptime and efficient data management.**
- Integrated Cloudinary for media uploads, **reducing processing time by 40% and enhancing user experience.**

Covermate AI | Github

July 2024 - August 2024

- Developed a Chrome extension using JavaScript, Node.js, and Express.js to automate the creation of cover letters on Internshala, **saving users 30% time spent on application submissions.**
- Integrated Gemini AI to create customized cover letters tailored to job descriptions, **enhancing relevance by 40%.**
- Designed an innovative AI solution that integrates seamlessly into the application process, allowing for **rapid content insertion in cover letters and increasing overall application throughput by 50%** without additional staff.

Achievements and Certifications

- Infosys Data Science Course Completion Certificate
- **Solved 100+ Questions on LeetCode** and attained a **5-Star Rating in C++ on HackerRank.**
- **2nd Rank in Web Application Development Hackathon** Hosted by PVG COET's ACM Student Chapter
- The Complete 2024 Full Stack Web Development Bootcamp, Udemy
- C++ Programming Advanced, Udemy
- Accenture Data Analytics and Visualization Job Simulation
